I need your list of requested items this morning. This is very important to how the discussion will go.

Thank you.

This was apparently how they sent other large files as well.

Subject: International Air Quality sub-PCC - July 25 noon-1:15pm
Attachments: Clean Air Concept Note.docx

Colleagues,

NSC will convene a small group sub-PCC on Wednesday, July 25 at noon to follow up on our work at the PCC level that identified air quality as an international environment priority for the Administration (see attached paper). The sub-PCC will be held in EEOB 476, and you can preclear into the meeting at the following link: <https://events.whitehouse.gov/?rid=Y49D9C78W9>

A draft agenda for the meeting is shown below. I'd like to use the first three agenda items to get everyone up to speed and have a common basis for discussions, and I'll look to State and EPA to provide opening remarks on those items as noted below. I'd then look to discuss some of the deliverables mentioned in the attachment, as well as international air quality issues that may merit attention in coming months. Please let me know if you have any questions. Thanks,

Yes correct. I'll send in a few – closing the loop on our end to ensure everyone is updated with the latest before sending out.
